You'll find more than 50 majors - and many areas of emphasis - to choose from at UW-Whitewater. Circle the majors that interests you. Cross off majors you immediately know you won't pursue. If you are unfamiliar with a major and want to learn more, put a question mark (?) next to it. Look at every major, but don't overthink your choices! Go with your first reaction. If the major you want is not listed, write it in below:
