

Senior Outcomes Assessment Survey 2021-2022

Consent

Congratulations on your upcoming graduation! While we know that COVID19 has impacted your college experience in ways we could not have anticipated, we hope you will share valuable information with us about your experiences over the course of your time at UWW.

As part of the UW-Whitewater graduation process, the university would like your opinions about: the various high-impact practices you participated in, the degree to which you have achieved specific learning outcomes, your satisfaction with advising at UW-Whitewater, and your post-graduation plans.

Your responses are an important source of information for the university as we evaluate our curriculum and engage in academic planning, but your participation is voluntary. We hope you will take this opportunity to provide your feedback.

We are also asking your permission to access demographic information from your student record (e.g., major, gender, ethnicity, ACT, GPA) so we can analyze responses for different subgroups. This information will be kept strictly confidential. Your identity will be protected and no identifying information will be included in any reports of the data. Data and identifiers will be kept on different servers/computers.

If you have any questions or concerns about participating in this study, you may contact the Office of Academic Assessment at assessment@uww.edu.

The Institutional Review Board at the University of Wisconsin-Whitewater has reviewed this study. If you have any questions about your rights/treatment you may contact Donna Kempf, IRB Administrator, Office of Research and Sponsored Programs, telephone (262)-472-5822, e-mail kempfd@uww.edu.

Please note regarding online research: Online communications, in general, are considered public in nature. Electronic records of such communications may therefore be subject to open records requests. As an online participant in this research, there is always the risk of intrusion by outside agents, i.e., hacking, and therefore the possibility of being identified. You are allowed and encouraged to change passwords for online email accounts at regular intervals.

Thank you very much for your time and consideration.

Completing this survey indicates that:

I am at least eighteen years of age, I give my informed consent to participate in the study, and I give my informed consent for the researchers to access demographic information from my student record.

Do you agree to participate?

Yes, I agree to participate

No
