

SAMPLE Four-Year Plan
B.A. Psychology
FALL 2022 Requirements

The curriculum in the psychology major is flexible and allows students to progress through their requirements in many ways. This sample four-year plan illustrates only one of the many possible pathways a new student could take to complete a degree in four years. This is not an official or prescriptive document and it does not show the only way that a psychology degree can be completed in four years. Current students should refer to their individual Academic Advising Report in WINS for specific graduation requirements. Courses in bold indicate major-based coursework that is completed in the first year.

First Year

Fall Semester	Units
English 101 Intro to College Writing and Reading	3
Psychology 211 Introductory Psychology	3
BA World Language course	4
Gened CORE 130 Individual and Society	3
Intrauniversity 104 New Student Seminar	1
Total Credits	14

Spring Semester	Units
English 102 Intro to College Writing, Reading, Research	3
Math 139 Quant Reasoning or 142 College Algebra	3-4
BA World Language course	4
Gened CORE 110 World of the Arts	3
PEGNRL 192 Personal Health and Fitness for Life	1
Total Credits	14-15

Notes: The math and English courses you take in your first year depend on your UW System placement exam scores. Students are strongly encouraged to complete placement testing prior to attending Warhawks SOAR (Student Orientation, Advising, and Registration). Students who are considering graduate school or who are interested in a minor or double major in the natural sciences (biology, chemistry, physics) should select Math 142. Psychology 211 is Introductory Psychology, a course that is a prerequisite for all other psychology courses. It should not be confused with Psychology 101, which is a one-credit introduction to the psychology major. Students are advised to take Psychology 101 as a sophomore or rising junior.

Opportunities: The Get Psyched learning experience is a great option for first-year students interested in the psychology major.

Second Year

Fall Semester	Units
Psychology 215 Basic Statistical Methods	3
Psychology 300-Level course	3
University Requirement Lab Science (GL) course	4-5
Gened CORE 140 Global or 120 Historical Perspectives	3
Communication 110 Intro to Human Communication	3
Total Credits	16-17

Spring Semester	Units
Psychology 216 Research Methods	5
Psychology 101 Introduction to the Psychology Major	1
U.S. Racial/Ethnic Diversity course	3
University Requirement GN/GQ course	3
Minor course	3
Total Credits	15

Notes: Psychology 300-level courses should be chosen in consultation with a psychology advisor. All majors must complete at least one 300-level course in each of these four areas: Biological Processes; Cognition and Learning; Personality, Development, and Social; Adjustment and Disorders. Students with strong interest in a career in the human services areas of psychology are encouraged to enroll in Psychology 327 Introduction to Clinical, Counseling, and School Psychology (an option in the Adjustment and Disorders area). The numbering of the 300-level course options does not reflect a recommended sequence through those courses. That is, students may take any 300-level course as their first 300-level course.

Opportunities: Consider joining Psych Club, an extracurricular organization open to anyone interested in psychology. Also, explore options for minors and certificates. Certificates document expertise and skills in particular areas. Psychology majors may be especially interested in certificates in Applied Research, Corporate Social Responsibility, Diversity Leadership, Interdisciplinary Ethics or Professional Writing and Publishing.

Third Year

Fall Semester	Units	Spring Semester	Units
Psychology 300-Level course	3	Psychology 300-Level course	3
Psychology 300-Level course	3	Psychology elective course	3
Gened CORE 390 World of Ideas	3	BA 300/400 Level Breadth Requirement	3
Minor course	3	Minor Course	3
Minor course	3	Minor Course	3
Total Credits	15	Total Credits	15

Notes: Students who intend to apply to graduate programs in psychology should be aware that graduate school applications are usually due at the end of the fall semester of the senior year. Therefore, relevant experiences and coursework undertaken in the fourth year, especially spring semester of the fourth year, do not usually appear on graduate school applications. This means that it is important to start these experiences in the junior year or earlier.

Opportunities: Students who intend to apply to graduate programs in psychology are strongly encouraged to consider undergraduate research opportunities. The junior year is an optimal time to connect with faculty research mentors and begin an undergraduate research project. Students can receive course credit for undergraduate research by enrolling in Psychology 498 Independent Study, 498R Undergraduate Research, and/or 499 Senior Thesis. Students with a strong interest in a career in the human services areas of psychology are encouraged to enroll in Psychology 487 Field Training. Instructor consent is required to enroll.

Fourth Year

Fall Semester	Units	Spring Semester	Units
Psychology 400-Level course	3	Psychology 400-Level course	3
Psychology elective course	3	Minor course	3
BA 300/400 Breadth Requirement course	3	Electives to total 120 (if needed)	6-9
Minor course	3		
Minor course	3		
Total Credits	15	Total Credits	12-15

Notes: Students who intend to apply to graduate programs in psychology are strongly encouraged to complete a senior thesis or other capstone project. Also, applications are due in late fall and early winter so you should be lining up those letters of recommendations by the start of this year.

Opportunities: Take advantage of the services in the Career and Leadership Development Office when exploring your post-college options. Students interested in entering the workforce should seek extracurricular development opportunities, such as internships in government or the private sector, volunteer opportunities, and other résumé-building activities. LSINDP 399: Career Information in Letters and Sciences is a 1-credit course that focuses on career and graduate school opportunities; identifying skills, strengths, and work values; creating effective job search materials; developing a networking strategy; and planning to a successful post-graduation transition.

Planning for Graduation: Students are encouraged to apply for graduation one full semester prior to their intended graduation date. Information about commencement is on the Registrar's Office website (<http://www.uww.edu/registrar/graduation>) and the application for graduation is available to students in the WINS Student Information System.
