Important Accounting Program Notes:

Account 493 (Accounting Internship) may be taken for 1-12 credits. An accounting major may take a maximum of 3 ACCOUNT courses in a single semester and no more than 9 units of ACCOUNT total. If a student is taking ACCOUNT 493 as their only course in a semester, that course may be taken for up to 12 units. The accounting department recommends that public accounting internships be completed during the spring semester.

The Accounting Department complies with UW-Whitewater's repeat policies. Under these policies an accounting major:

1. may repeat an accounting course in which they earned a C- grade or below for grade replacement.
2. may not repeat more than two accounting courses without permission from the Accounting Department.
3. may not repeat an accounting course if the student has received credit for a higher-level accounting course for which the course to be repeated is a prerequisite or co-requisite. For example, a student who has received credit for **ACCOUNT 341** may not repeat **ACCOUNT 250**.
