Change the Channel to the Library

Andersen Library offers a number of tutorials on its YouTube channel to get students up-to-speed on using a variety of research tools.

If your students need help with citation styles, citation managers or other research-related activities, there are tutorials available to make that happen.

ILLiad, Zotero, Endnote, APA style citations, Harvard Bluebook citations, and introductions to various databases are some of the topics covered in the tutorials.

Chronicle of Higher Education

The [Chronicle of Higher Education](#) is available to the entire campus via the Library's campus site license.

With support from several Colleges and Offices on campus, we can continue to offer this important resource to faculty and students.

From the Archives: Spanish Flu, Part II

During the Spanish Flu epidemic in the fall of 1918, Whitewater residents were encouraged to make their own cloth masks to stop the spread of the disease. Students at the Whitewater Normal School were restricted to gatherings of no more than 20 people, meaning "no more assembly periods, no more parties, no more dances." (*Royal Purple*, October 25, 1918). By mid-November, the school returned to normal operations.

However, on December 12th, Whitewater saw a resurgence of influenza cases and the City of Whitewater Board of Health issued new restrictions. Schools were not closed, but the Normal School stopped student meetings and assemblies. The city lifted the restrictions on January 2, 1919 and the Normal School returned to holding assemblies, sporting events, and dances.
