

## CREATING A MOVEMENT OF YOUNG PEOPLE

Encouraging them

## TO STAND UP & SPEAK OUT

### ➔ Educating

**RISE TOGETHER** provides educational services that not only brings value to students but also to parents, businesses, and all parts of the community.

Our programs are designed to educate students, teachers, families, professionals, in a variety of settings, on topics of substance use, addiction, mental health awareness, coping, and important life skills.

### ➔ Engaging

We primarily engage Middle Schools, High Schools, Colleges, and other public settings by educating through storytelling.

We offer an interactive school-speaking programs, a 21 day student-led program, parent-public panels, student workshops, employee engagements, and messaging trainings geared towards youth.

### ➔ Empowering

**WHAT HAPPENS WHEN YOU SHARE YOUR STORY?** Our stories have power. When we stand up and speak out we can create action that changes the world.

#### DRIVING TOWARDS PURPOSE

We want to help young people find their passions and purpose by discovering what they are good at. When we drive towards purpose we take charge and create a healthier future.

Rise Together is creating a community where millions of youth can be heard.

## WHAT'S THE PROBLEM?

Through our research, we have found an overwhelming amount of young people are suffering with significant trauma, large amounts of stress, substance use disorder, self-harm, suicidal tendencies, and other mental & behavioral health conditions; families are being torn apart and loved ones are being lost.

## WHAT'S OUR SOLUTION?

Since Sep. 2013, we have traveled over 200,000 miles, taken the stage over 400 times, partnered with over 150 schools, and educated over 125,000 young people. We have raised awareness through 100+ news media stories, contributed our youth research with the Federal Bureau of Investigation, and have been recognized by U.S. senators, legislators, teachers, and thousands of students across the nation.

Today, this leading grassroots organization is led by a team of dedicated professionals and a national advisory board, all of whom have diverse backgrounds, educations, professions, and skill sets. Our team is working hard today to reduce negative attitudes toward people with mental health and substance use disorders. We are on a mission to bring a face of recovery through advocating, educating, and bringing a voice back to the voiceless. With a vision to create a community where our youth are heard, loved, and inspired to live in hope.
