- Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications: demonstrated satisfactory academic progress, successful completion of college-level math and English courses, total credit hours completed, academic standing at your previous institution.
- If you have fewer than 12 transferable credits, we will also review your high school academic records.
- Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admissions into their majors.
