

# FSV Driver Delivery Detailed Safety Process

To minimize safety risk, service representatives will be provided appropriate Personal Protective Equipment (PPE) and disinfectant products to service each customer and machines.

In addition to PPE, service representatives are expected to use Social Distancing guidelines to minimize contact with others. Full-service vending machines will continue to be serviced. However depending on sales, fill capacities and frequency may be adjusted.

- Pre build order, - 1 trip per machine(s)
- Hand Sanitizer, sanitizer wipes, gloves, PPE
  - *Disinfectant: Sodium Hypochlorite solution (bleach)*
- Wipe down touchpoints on machine – throw away wipe
- Fill machine
- Back to truck – Sanitize equipment and wash hands

High Viz Social Distancing Vest

Nitrile Gloves

Mouth/Nose Covering

Hand Sanitizer / Disinfectant
